To all families of Christ the King:

Good afternoon everyone. As we prepare for this upcoming school year, we are ensuring that we take our programs and other activities for students to a greater level. We will have statewide competition opportunities for the following programs within the first two months of school. They are as follows: basketball, chess, academic games, art, and STEM club. If your children are interested in these activities, please send me their names via email. In addition, we have some new teachers at Christ the King that are highly engaging, hands- on, communicable to parents and very active and energetic that will be providing instruction to your children. We have a new religion teacher as well and we will offer a dance program to the students as well. Our teachers are revamping their knowledge of the Michigan Common Core State Standards and we have a new reading series as well which the teachers have received training on for implementation purposes this year. We thank you for your participation at Christ the King as we are always trying to find more ways to benefit your children academically and socially to broaden their horizons and get them ready for high school, careers, and college. We also are gaining more organizations who will serve as partners to the school. Lastly, we are asking all parents to be thoroughly involved in all school activities and volunteer whenever possible.

Sincerely,

Ivan Branson  
Principal  
Christ the King Catholic School
